PROFILE

Senior Frontend Developer with 8+ years of experience architecting scalable, high-performance web applications. Expert in the React ecosystem, state management, and frontend performance optimization. Proven track record of leading development teams, mentoring junior engineers, and delivering mission-critical projects for fintech and e-commerce domains.

EXPERIENCE

Lead Frontend Engineer

TechFlow Solutions | 2021 - Present

- Spearheaded the migration of a legacy jQuery monolith to a Micro-frontend architecture using React and Webpack Module Federation, reducing build times by 60%.
- Designed and implemented a reusable component library used across 5 different products, ensuring UI consistency and speeding up development by 40%.
- Optimized core web vitals (LCP, CLS) resulting in a 25% increase in user retention and a significant boost in SEO rankings.
- Mentored a team of 8 developers, conducting code reviews and establishing best practices for clean, maintainable code.

Senior Frontend Developer

Innovate IT Services | 2018 - 2021

- Developed a real-time analytics dashboard for a major fintech client using React, D3.js, and WebSockets, handling over 10k data points per second.
- Implemented rigorous unit and integration testing strategies achieving 85% code coverage using Jest and Enzyme.
- Collaborated closely with UX designers to translate Figma prototypes into pixel-perfect, responsive interfaces.

Web Developer

WebPixel Creators | 2015 - 2018

- Built responsive websites for various SME clients using HTML5, CSS3, and JavaScript (ES6+).
- Integrated RESTful APIs and optimized frontend assets for faster page loads.

PROJECTS

FinDash Pro

A comprehensive financial analytics platform featuring interactive charts, real-time stock updates, and customizable user widgets.

ShopSwift

An e-commerce PWA with offline capabilities, push notifications, and a seamless checkout experience.
