

Rajendra Mallina

Senior Software Engineer

Email: rajendram@email.com | Phone: +91 98765 43210 | Location: Hyderabad, Telangana

PROFILE

Senior Software Engineer with 8+ years of experience architecting scalable, high-performance distributed systems. Expert in backend architecture, microservices, and concurrency using Java and Spring Boot. Proven track record of designing fault-tolerant systems, optimizing database schemas, and mentoring engineering teams.

TECHNICAL SKILLS

Languages & Frameworks: Java, Spring Boot, Python, FastAPI, React.js

Architecture: System Design, Microservices, Event-Driven Architecture, REST APIs

Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, Kubernetes, CI/CD

Databases: MySQL, PostgreSQL, MongoDB, Kafka

PROFESSIONAL EXPERIENCE

Lead Software Engineer

TechFlow Solutions | 2021 - Present

- Spearheaded the migration of a legacy monolith to a scalable microservices architecture using Spring Boot, reducing system latency by 40%.
- Designed and implemented a high-throughput notification system utilizing Apache Kafka to handle millions of events daily.
- Mentored a team of 8 developers, conducting rigorous code reviews and establishing best practices for clean, maintainable backend code.

Senior Backend Developer

Innovate IT Services | 2018 - 2021

- Developed a real-time analytics backend for a major fintech client using Java and WebSockets, handling over 10k data points per second.
- Optimized database queries and implemented caching layers (Redis), reducing average API response times by 35%.

- Collaborated with frontend teams to design efficient RESTful APIs for seamless user experiences.

EDUCATION

M.Tech in Computer Science and Engineering

Sasi Institute of Technology and Engineering | 2018

B.Tech in Computer Science

Sasi Institute of Technology and Engineering | 2015
